

I am very thankful and am blessed to be able to listen to K-LOVE. The songs and testimonies encourage me daily as I am driving and working. I am a first grade teacher and my students know every song played on K-LOVE. How refreshing it is to hear words of praise being sung by 6 year old children! What kind of message would be sent to these children if people like yourselves decide God should be taken off the radio? Our culture is in desperate need of positive attitudes and messages. I know many adults who listen to K-LOVE as well and what a truly sad day it would be if this service was terminated. I would simply not listen to anything else. So I am asking you to please consider the impact of this decision and realize just what a grave mistake taking positive and encouraging K-LOVE off the air would be.
